

# BASIC TRAINING (BTC)

## COURSE SUMMARY - ICAO

Whether trainees are heading towards an Aerodrome Control Tower, Approach Control Unit or Area Control Centre, our Basic Training Course lays a foundation of theoretical knowledge and basic practical skills in compliance with relevant ICAO regulations.

The content of the course is a first step towards a Student Air Traffic Controller license, covering aspects such as Air Traffic Management, Rules of the Air, Aircraft etc. required to perform as an Air Traffic Controller. The course holds an introduction to all ATC environments – Tower, Approach and Area Control.

The modular course design offers the opportunity to customise course content to meet customer requirements – please contact us to discuss options. In addition, we provide the opportunity for flying lessons enabling students to develop a wider and deeper perspective.

GATE Aviation Training academy is certified by the Danish Civil Aviation Authority in accordance with Commission Regulation (EU) 2015/340.
